WE ARE an innovative, student-run magazine that brings a youth perspective to newsworthy stories, by practicing honest, ethical journalism.

WE ARE students of duPont Manual High School's Journalism and Communications program, and we plan to accept submissions from youth city-wide.

WE ARE members of the community that are often left unheard, though we have awareness of political, economic, and social issues. While our goal with On the Record is to create content by youth for youth, we want the rest of the community to take a look as well.
